The Meruelo Family Center for Career Development is planning for the Winter Session that will run during the months of December and January. Daily programming will provide students unique learning opportunities and short-term, professional assignments will provide students on the job training, during a time that fewer academic courses will be offered.

If you are interested in helping ND students develop professionally, and expand your brand while engaging prospective candidates earlier in the process, we’d love to partner with you!

Short-Term Projects Are...

- Employer, alumni or individual based, and conducted virtual or in-person.
- Paid or unpaid, but benefit the student and their professional development.
- 10-40 hours long in duration (i.e. 3 days to 3 weeks), but flexible in nature.
- Results driven, skill building work that makes a difference in a student’s life.
- Conducted during the target timeframe of early to mid-January (earlier start is possible).

Examples of Short-Term Projects Include...

- Content Creation
- Competitive Analysis
- SWOT Analysis
- Marketing Plan
- Vendor Research
- Strategic Partner Identification
- Lead Generation
- Venture Capital Prospecting
- LinkedIn Company Research
- Diversity Best Practices
- Talent Community Evaluation
- Social Media Management
- Community Engagement
- Technology Strategies
- Financial Modeling
- Operational analysis
- Process Improvement
- Product Analysis
- Product Design
- Facebook Ad Management
- Software Application Design
