SPHERO ROBOTICS COMPETITION

BUILD IT.
CODE IT.
BRING IT.

Big ideas. Student-built robots.
A new robotics community in Idaho.

Help bring SRC to our area.

West Minico Middle School students are ready to compete! With enough local team interest, the school is willing to host SRC events. Your school could help make it happen.

STUDENTS TAKE THE LEAD

Design, build, code, and drive Blueprint Robotics robots in Team vs Team Matches and Tech Trials. Build confidence, creativity, and teamwork through hands-on problem solving.

NEW TO ROBOTICS? START HERE.

For middle and high school students (U19). No robotics experience needed! Adult Team Coordinators support a Student-Powered experience with guides, meeting activities, and TEAM Alliance support.

SRC GRANTS: SUPPORT TO GET STARTED

$1,299

Regular SRC Matching Grant toward an eligible **$2,598 two-kit SRC package.**
No limit per organization; one grant per registered team.

For schools new to robotics competitions: An additional grant covers the other SRC Competition Kit ($1,299), covering both kits when combined with the regular matching grant. **Additional grant limit: two per school.**

Team registration is separate: $500 for 2026-27. Matching grant approval requires paid or PO-processing registration, participation in both the 2026-27 and 2027-28 seasons, and required surveys. Full terms and application: **teamalliance.org/library/src-grant/**

JOIN THE SRC INFORMATIONAL WEBINAR

WEDNESDAY, NOVEMBER 4, 2026
6 p.m. Central | 5 p.m. Mountain
Hosted by TEAM Alliance. **Scan the QR code or click here to register.**
