A teacher fellowship, sponsored by Playlab

Agency in Practice

Help shape the future of AI with your students.

AI is already in students' hands, and many teachers are being asked to bring it into class before they've settled on their own view of it. You don't need to have it figured out. Join other high school teachers and after-school educators to work through those questions together, in **a collaborative opportunity to design and pilot curriculum intended to build Student AI Agency.**

Fellows use Playlab's platform and our Student AI Agency resources as a springboard to co-design a learning experience where students build with AI.

20	8	$1,500	Dec 11
fellows, high school teachers and after-school educators	virtual sessions, Tuesdays 5:00–6:30 PM MT	stipend for each fellow	application deadline

What fellows do

01 **Contribute to the cohort**
Attend at least seven of the eight sessions, and bring your classroom experience and honest feedback to your peers.

02 **Co-design and test**
Adapt or create one student-building experience and try it with at least 10 high school students.

03 **Share your work**
Present at the showcase and add one classroom-tested resource to a free, teacher-created library.

04 **Lead for colleagues**
Facilitate one learning experience for other educators, such as a school session, a district event, or a conference.

What you'll receive

A $1,500 stipend
paid when commitments are complete

A Playlab license
for building with students

Starter curriculum
to adapt and make your own

Co-designer credit
on the resources you contribute

Coaching and community
of educators to learn alongside

Public recognition
as a teacher leader

Eight Tuesday sessions, with room to try it with your students.

Build and plan

01	Jan 19	**Foundation and vision**
02	Feb 2	**Curriculum deep dive**
03	Feb 16	**Product deep dive**
04	Mar 2	**Implementation plans**

Learn from it and share

05	May 4	**Looking at student work**
06	May 18	**Co-design**
07	Jun 1	**Preparing to publish**
08	Jun 15	**Showcase and learning**

Your implementation Try your design with your students. Start whenever your plan is ready; it needs to be complete by May 4, when we look at student work together.

Is this for you?

- ✓ You teach high school or lead an after-school program for high school students.
- ✓ You have experience with Playlab, or are willing to take a free onboarding workshop first.
- ✓ You'll share one resource you design in the program and lead a session for colleagues.

Apply by December 11

About 15–20 minutes. We'll notify you December 18.

Still wondering?

- How does the stipend work? +
- Whose approval do I need? +
- What happens to my students' work? +
- How are fellows chosen? +
- Questions, or know someone who'd be a fit? +

Playlab is a nonprofit dedicated to creating a future where educators and students have the agency not just to use AI, but to shape it.
